## Getting

## Restless

His Majesty Wanted to Get Out to See Troops March By.

But Physicians Thought It too Early Yet to Risk Exposure.

Wound Is Healing Well and the Patient Feeling More Comfortable.

London, July 2.—King Edward has passed another good day. The quiet and routine of the royal sick room was varied today by the excitement of listening to the music and cheers of the Indian troops as they marched past the palace and greeted Queen Alexandra on the balcony.

King Edward demanded a full account of the review, and the formal report made by the Prince of Wales was supplemented by the personal narrative of the Queen.

His Majesty dictated a letter to the Duke of Connaught, commanding him to compliment the colonial troops upon their excellent appearance, and to thank them for their expressions of loyalty and sympathy, which he had heard with pleasure in his sick room.

King Edward was somewhat disappointed that he was not able to see the march past of the troops. He had hoped that this would be possible from an invalid couch in a window of the palace, but the King's doctors were unwilling that their patient should risk exposure and excitement, and His Majesty had to content himself with hearing the troops without seeing them.

THE BULLETINS.

London, July 2.—At Buckingham Palace the following bulletin was issued at 10 o'clock this morning:

The King had another excellent night and is making steady progress in all respects. The wound is much less troublesome, and is beginning to heal.

Signed "Treves, Laking, Barlow."

The following bulletin was issued from Buckingham Palace at 7 p.m.

The King maintains his strength. The local pain being less, the days are passed with greater comfort."

The Prince and Princess of Wales

gave a brilliant dinner party at York House tonight in honor of the visiting Indian princes.

A unique and impressive scene was witnessed in St. Paul's cathedral this evening, when some 2,000 doctors assembled beneath the dome of the building and offered prayers for the King's recovery. Many of the doctors wore their academic robes. A litany was sung in procession, the doctors joining in the singing. At the conclusion of the service the congregation sent a message to Queen Alexandra expressing its good wishes for His Majesty's speedy recovery.

THE BULLETINS.

London, July 2.—A long and heated debate on the Irish land question was precipitated in the House of Commons tonight. Thomas W. Russell (Liberal) moved the adjournment of the House to discuss the pending evictions from the estate of Lord De Freyne, in Roscommon county, in connection with which Lord De Freyne recently had writs issued against a large number of the Irish parliamentary party, whom he charged with conspiracy in the matter. Mr. Russell declared that unless the government intervene to prevent these evictions, an era of trouble and turmoil would be inaugurated in the West of Ireland, where there was trouble enough already. He said that he had visited the De Freyne estate three times, and that he was thoroughly convinced of the injustices under which the tenants of the estate suffered. The people in question were the poorest of the poor. Continuing, Mr. Russell said one word from Mr. Wyndham, the chief secretary for Ireland, would settle the whole trouble, and that he thought that the reduction of the rents collected on the estate by 33 per cent, could be excessive for those bog, which were now renting for more money than was obtained for decent arable lands in Ulster county.

Mr. Wyndham replied to Mr. Russell with some asperity, and said he was surprised to find the latter siding against law and order. The rents from the De Freyne estate, he said, had been reduced 37 per cent in the past 20 years, and that he knew some of the organizers were making money out of the agitation. His advice to the tenants was to stay on. This statement was greeted with groans from the House. Hundreds had done so, said Mr. Wyndham, and this remark was received with Conservative cheer. Mr. Wyndham said it was impossible to carry out the land purchase scheme in Ireland, when it was interrupted by agitators who desired to make government there impossible.

John Redmond, the Nationalist leader in the House, characterized Mr. Wyndham's statement as patric and ill-tempered. He declared that whatever money was paid in rentals on the De Freyne estate was earned by the male population working in England during the harvest season, and he contended that the government would be directly responsible for the happenings on the De Freyne property.

After other members of the House had been compensated by Sir Thomas, but for some unknown reason, Mr. Gilbert said Sir Thomas refused to compensate for his services in connection with the former. The plaintiff's services extended, he said, over a period of two years or more, and he seeks to recover \$11,515 for those services.

THE BULLETINS.

London, July 2.—The suit brought against Sir Thomas Lipton by David M. Barrie, who acted as the Baronet's personal and business representative in this country during the America cup races began today. Counsel for Mr. Barrie said today that the suit is an attempt by Mr. Barrie to recover from Sir Thomas compensation for services rendered in the last series of races for the cup. He said Mr. Barrie managed Sir Thomas' affairs relative to Shamrock IL and Shamrock I. For his services in connection with the latter craft he was compensated by Sir Thomas, but for some unknown reason, Mr. Gilbert said Sir Thomas refused to compensate for his services in connection with the former. The plaintiff's services extended, he said, over a period of two years or more, and he seeks to recover \$11,515 for those services.

## NEW APPOINTMENT.

Geo. McL. Brown Takes Mr. Sheffield's Place.

Montreal, July 2.—Mr. G. McL. Brown, executive agent of the C. P. R. at Vancouver, has been appointed superintendent of dining cars, hotels, etc., of the same railway, in place of J. A. Sheffield, resigned.

## NORWAY FIRE.

Many Houses Destroyed in Town of Larvik.

Christians, Norway, July 2.—The fire which broke out yesterday at Larvik, province of Jarlsberg, was subdued this morning. About 150 buildings were destroyed. The loss is estimated to be over a million kroner (about \$280,000).

## CUSTOMS INCREASE.

Halifax and St. John Have Satisfactory Reports.

Halifax, July 2.—The customs receipts for the year ending June 30 at Halifax increased over one hundred thousand dollars compared with last year. At St. John, N. B., the increase was nearly \$40,000.

## ARGONAUTS.

Row at Henley in Record Time.

London, July 2.—The regatta at Henley will begin Tuesday next, July 8, and finish on Thursday, July 10.

The Argonaut crew, of Toronto, left Bourne End for Henley this morning, after a good row of a mile and a quarter in time equaling the record. Scholes, the Canadian sculler, has arrived at Henley.

## LAND SALES.

Huge Increase Over June of Last Year.

Winnipeg, July 2.—Canadian Pacific land sales for June were 257,641.52 acres for \$945,786.39, making the average price per acre \$3.67. The sales in June, 1901, were 59,168.03 for \$161,352.28, averaging \$2.11 per acre. This shows an increase in land sold of 207,476.55 acres, over 400 per cent.

## PRINCE IN TROUBLE.

Member of Austro-Hungarian Mission Under Arrest.

London, July 2.—Prince Francis Joseph of Braganza, a lieutenant in the 7th Austrian Hussars, a son of the former reigning house of Portugal and a member of the Austro-Hungarian mission to the coronation, appeared in the Southwark police court today with other men charged with a criminal offence. Strict secrecy was observed by the court officials regarding the nature of the charges. Formal evidence was given that certain information in the possession of the magistrate was true, and the proceedings were adjourned.

Prince Francis was allowed to furnish bail for his appearance. His companions were retained in custody. It was said that the Prince's defence would be that an attempt was made to blackmail him, that he resisted, and that thereupon information was given to the police, resulting in his arrest and that of the alleged blackmailers.

## ONLY ONE MAJORITY.

Ross Government and Opposition Almost a Tie.

Toronto, July 2.—(Special)—By a decision in the Lemmon election case this morning, given by Judge MacLennan, the majority of the Ross government was reduced to one. It will be remembered that the vote was a tie after the recount in Lemmon, and the Conservative candidate, Carscallen, appealed against the recount, which prevented the returning officer giving his casting vote, and elected Madole, a Liberal. Today Judge MacLennan ruled that the original ballots rejected for Carscallen he allowed and one for Madole rejected, giving Carscallen the seat by 3 majority.

Judge MacLennan gave judgment today in the case of North Grey, awarding the seat to McKay, Liberal, by 2 majority. Petitions have been entered against Dickinson, Liberal, North Wentworth; Hon. J. M. Gibson, Liberal, East Wellington; and Carscallen, Conservative, East Hamilton.

Kingston, Ont., July 2.—(Special)—A protest has been filed here against the return of E. J. Pense Liberal member for Kingston in the Ontario legislature. Corrupt practices by agents is alleged. Mr. Shaw, the defeated candidate, is the petitioner.

## AT GRAND FORKS.

Showery Weather But Lots of Enthusiasm and Sports.

Grand Forks, July 2.—Showery weather marred the success of the Dominion Day celebration, although the attendance was large. Special trains brought visitors from Republic, Burns and Boundary points. The Rocky Mountain Range gave an exhibition of Maxim gun drill, but the street parade was abandoned.

The Grand Forks football team defeated the Granby smelter team by a score of 3 to none. The lacrosse match between the Nelson and Grand Forks teams was won by the former by a score of 11 to 1.

Despite the wet weather, the entire programme of races was carried out at the race track. The results were as follows:

Running one-quarter mile, purse \$125—First, Miss Miller, owned by John Hartline, Rosland; second, Yellow Girl, Lamondi, Grand Forks; third, Easter Lily, A. W. Lee, Grand Forks; time, 23.2 seconds.

Three-mile trot or pace, mile heats, purse \$250—First, Sam Bowers, owned by H. Lance, Spokane; second, Lookout, C. C. Ermert, Spokane; best time, 2:41.

Grand Forks Derby, one mile, purse \$400—First, Esperando, owned by F. J. Parker, Spokane; second, Junot, owned by T. Greshell, Walla Walla; third, Blackbird, Dr. Averill, Grand Forks; time, 1:51.

Gentlemen's Saddle, purse \$275—First, Buck, owned by J. Royer, Grand Forks; second, Billy R. Dr. Richards, Grand Forks; time, 23 seconds.

Running five-eights mile, purse \$250—First, Sally Goodwin, owned by F. J. Parker, Spokane; second, Yellow Girl, L. A. Manly, Grand Forks; third, Roy Carruthers, T. Wellman, Cranbrook; time, 1:06.3.

Dr. M., the guideless pacing wonder, owned by Harry McIntosh, Rosland, gave a splendid exhibition, covering one mile in 2:41.

## E. &amp; J. BURKE'S ★★★ OLD IRISH WHISKEY

The undoubted superiority of Burke's ★★★ Old Irish Whiskey accounts for the world-wide popularity it has enjoyed for more than half a century.

For sale by all leading Grocers and Wine Merchants.

JOHN HOPE & CO., Montreal, Agents for Canada

## THE INDIAN TROOPS.

Reviewed by Prince of Wales in London.

London, July 2.—The review of the East Indian troops today was largely a portion of yesterday's function, but the varied coloring of the uniforms of representative corps from all the parts of Hindustan formed an altogether most picturesque spectacle.

Queen Alexandra was again the centre of the review, and the public welcomed the opportunity to testify once more its sympathy with her account of her recent anxiety and its congratulations at the good news regarding King Edward's condition.

The review procedure of yesterday was followed. About one thousand three hundred dark-skinned troops, headed by a detachment of the bodyguard of the Viceroy of India, Lord Curzon or Kedleston, reached the Horse Guards Parade, the Strand, and Hounds Across the Sea. The members of the royal family, who reviewed the columns of soldiers yesterday, traversed the lines of the soldiers of the Indian Empire. The Prince of Wales, representing the King, stood by the side of his mother's carriage and took the salute, and the proceedings ended like those of yesterday, with cheers for the King, led by the Duke of Connaught, the Indians drawing their swords and waving them as they joined in the cheering.

On returning to the palace the Queen appeared at an upper window and took upon her shoulders of the Indian troops as they marched past on their return to camp. The Indians recognized the Queen, and each detachment cheered as it passed.

The British fleet, which assembled off Spithead for the proposed coronation review, dispersed this morning.

## DENIES THE CLAIM.

Lipton's Legal Representative on Suit by Barrie.

New York, July 2.—Attorney W. U. Taylor, counsel for Sir Thomas Lipton's interests in the United States, said today, in replying to the statement of Mr. Gilbert, that as he has not received the formal complaint, he did not care to discuss the case in all its bearings. "Mr. Barrie," he added, "was never more than a clerk in the Lipton offices here. He never had power of attorney for Sir Thomas, and was never in any sense his representative." The statement of the information furnished by the London Lipton company, through Mr. Davis, who is now in charge of the offices in this city, is not indebted to Mr. Barrie for a single dollar. The amount involved there is so small and the publicity of a suit of this kind is so disagreeable to our client, that it can be seen on the face of it that if there was any merit in the claims, they would have been paid when first presented.

## CZAR ASSERTS HIMSELF.

Will Give Private Audience to Men of All Classes.

London, July 2.—In a despatch from St. Petersburg, the correspondent of the Daily Express asserts that in defiance of the advice of his ministers, the Czar has decided to give a private audience to some 200 representative Russians of all ranks, including university professors, publishers, editors, political writers, even convicts, with a view of thoroughly probing problems and discovering the motives for the assassinations of minister and officials. They will be invited to tell the Czar frankly how the threatened revolution may be averted, and by what peaceful means the distress and dissatisfaction of the lower classes may be alleviated.

At a speech to the Renter Telegraph company from St. Petersburg, says there have been labor riots for the past few days at Rostov-on-Don, in the province of Ekaterinovsk, Southern Russia.

## KILLED BY LIVE WIRE.

Man Trying to Rescue Comrade Perishes.

St. Catharines, Ont., July 2.—(Special)—At the Cataraqui Power company's works, three miles from St. Catharines, Dexter Griffiths was instantly killed by coming in contact with a live wire. Griffiths and a man named Higgins were working in the power house when Higgins, in some manner, came in contact with a wire and received such a shock that he was unable to move. Griffiths, in his eagerness to rescue his companion, rushed forward, and as the door of the power house was wet, received the full force of the current through his own body, killing him instantly. Higgins escaped with a severe shock.

## POSTAL TELEGRAPH.

Deal With Pennsylvania Road Definitely Settled.

Philadelphia, July 2.—The Record will tomorrow say: The deal between the Postal Telegraph Cable Co., and the Pennsylvania railway company, has been definitely settled, and the contract dated July 1 as originally proposed, although the document has not been actually executed. The contracting corporations, through properly selected officials, have executed an agreement under the terms of which the Postal Telegraph Cable company, at once becomes possessed of all the rights and privileges that will finally appear in the long term contract now perfected by attorneys representing the two companies involved.

## THE FISHERIES.

Formal Notification of Ottawa by the Province.

Ottawa, July 2.—The Attorney-General of British Columbia has notified the Department of Marine and Fisheries that the province will look to the Dominion for its share of the license fees this year, once the matter has been properly adjusted. In the meantime the province will not interfere with any now being granted by the Dominion, but will expect that part of the proceeds which, according to its contention, should go to the province.

## TREATY OF COMMERCE.

Spain Ready to Sign Arrangement With United States.

Madrid, July 2.—The Minister of Foreign Affairs, the Duke of Almodovar, has been authorized to sign a treaty of commerce with the United States, which will be sent to Washington for approval of the Senate.

Don't miss it. The Fourth of July celebration at Port Angeles.

## DOHERTY'S BEATEN.

All-England Double Championship Taken From Them.

London, July 2.—S. H. Smith and F. L. Risely beat the Brothers Doherty, holders of the all-England double championship by 4-6, 8-6, 6-3, 4-6 and 11-9.

## FAST ATLANTIC SERVICE.

London Chamber of Commerce Looking Into Subject.

London, July 2.—The Chamber of Commerce has appointed a committee to inquire into the project of a fast Atlantic service.

## KILLED BY ELECTRICITY.

Student Meets Death While Making Experiment.

Schenectady, N. Y., July 2.—T. H. Heath, aged 30 years, of Rugby, England, a student in the testing department of shop No. 11, in the General Electric Works, was instantaneously killed this morning, while engaged in making a test. Two hundred and forty-five volts in an alternating current caused his death.

## WESTMINSTER TEAM.

Given a Banquet at the Windsor by the Shamrocks.

Montreal, July 2.—(Special)—The New Westminster lacrosse team has decided not to play anywhere else in the East, and will leave for home tomorrow. This evening the Shamrocks entertained them to supper at the Windsor. Their share of the gate receipts is \$1,500, and expense of their trip \$3,000. However, as New Westminster contributed \$1,000, they are only \$800 short.

## ARSENAL ATTACKED.

French Sentinel Outside Brest Powder Magazine Wounded.

Brest, France, July 2.—Two men attempted to enter the magazine lying just outside the fort yesterday evening, and wounded the sentinel with a revolver. The latter fired upon them with his pistol, setting off an alarm, but his assailants escaped. A similar attempt was made Saturday evening, and it is believed that they were anarchist to blow up the magazine, which contained powder sufficient for five million cartridges.

## WISCONSIN TORNADO.

Death and Destruction Over Large Stretch of Country.

Racine, Wis., July 2.—A tornado swept across this country from the town of Raymond, east of Hinsdale, in the township of Calumetia, a distance of ten miles, and about half a mile in width today. One man was killed, several persons were injured, 40 houses and barns wrecked, hundreds of trees blown down, hundreds of acres of grain ruined, 30 or 40 head of stock killed. The estimated damage is \$50,000.

## TRAIN'S RUNNING.

But Canadian Northern Freight Service Tied Up.

Winnipeg, July 2.—The Canadian Northern passenger trains were running as usual today, but the freight service is tied up by the strike of freight handlers and trackmen.

Wm. Brune, leader of the Posen band, was drowned at Oak Point, Lake Manitoba, while bathing.

The warm weather throughout the West today is most favorable for the crops.

## SOLDIER'S DEATH.

Canadian Wounded at Hart's River

Succumbs.

Ottawa, Ont., July 2.—(Special)—A cable from the Casualty department announces the death of Farrier Sgt. Wm. H. Thompson. He was wounded in the breast at Hart's River, F. Clarke, of Montreal, is dangerously ill.

The Bell Telephone Company has refused to sell out its Ottawa plant to the city.

Wm. Paterson, of Newcastle, is here to endeavor to secure from the government the return of his \$50,000 deposit, which he put up some years ago as guarantee of carrying out a fast Atlantic contract. He says the government according to the actual number of days he has worked, which in the past ten years have averaged little over 15 days to the month. The report of the Pennsylvania Bureau of Mines and Mining for the year 1898 is \$34,10, and that of the day laborer \$28,40, and average of \$1.37 per day for the miner, and 90 cents for the laborer. The actual wages as figured by the miner, vary from \$30 to \$80 a month. This difference is due to the fact that the operator figures on the basis of full time, while the fact is that the miner rarely makes full time, and is compelled to figure according to the actual number of days he has worked, which in the past ten years have averaged little over 15 days to the month. ## The Voyage of The Blakeley

Gives Fortune Tellers Chance  
to Work Overtime—No  
News Received.

Port Essington Celebrates Coronation Not Knowing of Postponement

Since Tuesday morning there has been more or less local interest in the voyage of the treasure-hunting brigantine Blakeley, as a result of the posting of a bulletin (revised on a grapevine) which a number of schooners had arrived at San Francisco and reported speaking the Blakeley with the treasure on board, bound home, on June 20. As a matter of fact, nothing has been heard from the Blakeley since she left Victoria on January 6 for Cocos island, although when H. M. S. Grafton was bound North a brigantine—presumably the Blakeley—was seen anchored off the island. With what success the divers delved for treasure is unknown—unless the many stories of the fortune-tellers give credence, as they are by some people.

Not long since a lady of Nanaimo told her friends that she had seen with the eyes of the spiritualist the treasure-hunters digging up diamonds on the island. Another fortune teller told of how she saw the treasure-seekers breaking through the wall of a cave and picking up the glittering crown, the jewel-encrusted swords of old Lima's warrior kings, the precious stones which adorned a long-deceased prince among the coast cities which are the bane of the brigantine of the world. Others told of how the brigantine's boats were making many trips from the zingle to the anchored vessel, and the sacks of treasure were dumped into the hold as stavedores load wheat. But it was only the gifted seers who saw these things, for to others the expedition's doings have been a blank since the vessel started.

The stock has been sold and resold at all prices from \$10 and less to \$40 per share—as the excitement increased with every report. Some of those who have great faith firmly refuse to sell at any cost, while one, at least, of the prime movers, has unloaded much stock in out-side cities. And so it goes, until the brigantine is spoken of as afloat in one of the world's ports, the story of the search, whether successful or otherwise must remain for the seers alone to tell.

One of those who see with the eyes of the brigantine not long since told of seeing the brigantine deeply laden with treasure, laboring in a storm in the neighborhood of the line, in which event, had the seer's story been one of fact, the captain would doubtless think twice, even three times—before venturing to jetison the cargo. In fact, it would be more likely that the crew would have to be jettisoned, if it were necessary to lighten the ship, for it would never do to jetison diamonds as though they were cases of salmon, which would float ashore and cause reinsurance speculations.

Nothing has been heard of the British bark Broughton also, which it was rumored was on a treasure-hunting expedition to the same island as for which the Blakeley sailed. The Broughton is reported by Lloyd's and other shipping lists to have sailed from Glasgow on November 25 for Cocos island, and since then there has been no report from her.

**DISASTROUS COLLISION.**  
Many Lives Lost by Foundering of a Japanese Steamer.

Steamer Riojum Maru, of the Nippon Yusen Kaisha line, which sailed for Seattle yesterday morning after discharging a large cargo, brought news of a collision between two Japanese steamers of the Otsuka Shosen Kaisha, off the coast of Korea during a thick fog on the night of June 11, which was fraught with heavy loss of life. The steamer Kumagawa Maru, which sailed from Chemulpo on June 11, with cargo, mails and passengers, for Mukopu, collided with the steamer Kisogawa Maru of the same line, 30 miles from Chemulpo, at 11 o'clock the night the Kumagawa left port. The Kumagawa filled and foundered in two minutes, carrying most of the crew, including the chief engineer, 3 Japanese, 15 Koreans and 17 Europeans to death. Nineteen passengers, 1 a European, 3 Japanese and 15 Koreans, were saved by the steamer Kisogawa and taken to Chemulpo. The Kisogawa was not seriously injured, and left with the cruiser Chikubu later for the scene of the wreck. One of the Korean passengers and one Japanese were drowned from the Kisogawa, which sustained only slight damage to her bows. The Kumagawa Maru, which sank in deep water about 10 miles off the northwest of Osei island, will be a total loss. She was 346 tons register, built at Osaka in March, 1900, at a cost of 60,000 yen.

**WILL CARRY LOGS.**

A New Enterprise in Which Victorians Are Interested.

The four-masted British schooner Alexander, a vessel of 180 tons, formerly a steamer, now a Port to Tiverton, which she recently arrived from Guyana, is to be dismantled and used for the purpose of towing logs from San Juan harbor, on the West Coast of Vancouver Island, to Victoria mills and to Burrard inlet also, in all probability. Logging camps are being established on San Juan harbor, and owing to the weather conditions usually prevalent off the coast in that vicinity, it is impracticable to send the logs to Victoria in rafts as is done elsewhere. The logs will be therefore loaded into the schooner Alexander, which will be towed to Victoria by the tugboat Albion, now in the upper harbor, which has been in the general towing business out of this port. The Albion will make regular trips from San Juan to Victoria with the log-laden schooner and large camps will be kept at the West Coast inlet to get out the logs.

**BROKEN RECORDS.**

The Sternwheeler Mount Royal successfully on the Stikine.

Steamer Mount Royal, the sternwheeler built here for the Hudson's Bay company has proved herself a great success by her work on the Stikine river. According to private advices received in the city from Wrangell, the sternwheeler has broken all records in steamboating on the Northern river by running right through the canyon at the time the freshets were at their highest, and she has also done away with the records for speed on the Stikine.

**ESSINGTON CELEBRATED.**

Not Knowing That King's Coronation Was Postponed.

Steamer Nell, Capt. Oliver, returned from Nanaimo and way ports, including Skidegate, last night, bringing out cases of salmon from the Skeena for Simon Leiser, and a large consignment of dogfish oil from Skidegate, as well as some general cargo. From Inverness the steamer brought news that there was a local sensation caused by the finding of the body of Prevost, the father of the

## Local News

**Miner's Death.**—The death occurred at St. Joseph's hospital yesterday of Peter Overman, a prospector who arrived here last week. He was very ill with pneumonia when he arrived. J. E. Nawn, who came down with the deceased left for Seattle and his address is not known.

**Picnic Saturday.**—The St. John's Sunday school picnic will be held at Sidney on Saturday and promises to be a great success. The teachers have arranged for races and games, to commence on the arrival of the 2 o'clock train. Some valuable prizes are to be given away.

**Going to Seattle.**—This evening the Fifth Regiment band will leave on the steamer Maestra to fulfil a three-month engagement in connection with the month of July celebration by the citizens of the metropolis of the Sound. Arrangements have been made by Mr. E. E. Blackwood for the band to play a concert on board.

**Hello, Crofton!**—The telephone company yesterday completed the installation of a long-distance telephone at Crofton, and now conversation over with a direct wire can be carried on with that place from Victoria or other places on the long-distance line. Hitherto Crofton could only be communicated with indirectly by way of Westholme.

**Installation.**—The officers of Columbia Lodge, I. O. O. F., were installed last evening in ample form by Grand Master A. Graham, assisted by an efficient staff of Gobin officers, and are as follows: J. A. Grant, N. G.; S. Reid, V. G.; R. W. Fawcett, rec. sec.; W. Jackson, pen sec.; G. T. Fox, treas.; R. Marwick, war.; J. W. N. Shepherd, con.; W. H. Huxtable, O. G.; Walter Dempster, L. G.; W. V. Dempster, R. S. N. G.; James Pottinger, R. S. N. G.; W. G. Caderwood, L. S. V. G.; W. Sumner, L. S. B.; Duncan, chap. A vote of thanks was passed to Bro. James Wilby, the retiring noble grand, who has occupied the chair for a year past. A committee of three was appointed to revise the by-laws of the lodge, viz.; Jas. Wilby, R. Marwick and Jas. Pottinger. Dominion and Victoria lodges will not install officers until next week.

### TO COME HOME.

Some of the Schooners Will Be Tied Up

Steamer Willard, which sailed for the West Coast last night, carried among her passengers two sealing captains, who are returning to the coast to bring home their schooners and tie them up for the season as a result of their failure to get Indians for the Behring sea cruise. Capt. Hackett went to San Juan to bring home the Lillie and Capt. Byers to Ucluelet to bring home the Teresa. Capt. G. Heater went to Kyuquot—to which port the steamer is to extend her cruise, in consequence of getting a crew here for the schooner Pendulum. A boy has been secured for the Zilah May here and the Favorite and Carrie C. W. have crews. The Victoria is also likely to secure a crew here.

The Willapa had a full complement of passengers and a heavy cargo of general freight, including lumber for Bamfield Creek, San Juan and other points, and supplies for nearly every port of call along her route. Among the passengers were Joshua Holland and party, for Bamfield Creek; N. S. Clarke, for Port Alberni; and Capt. Jas. San Juan; Miss. McDonald, for Ucluelet; Mrs. Savage and Miss L. Hill, for Camahanah; R. Davidson, L. Bourde, Mrs. Holland, Miss. Holland, Capt. Hackett, for San Juan, and Capt. Byers and wife, for Ucluelet.

**FOR SKAGWAY.**  
Amur Carries Machinery for White Horse at Express Rates.

Steamer Amur, which sailed for Skagway last night, had a small complement of passengers and a meager freight in comparison to the cargoes shipped North at this time last season. She had a ton of saw mill machinery, which was being shipped to White Horse by the Arctic Express company at express rates, which are considerably higher than the usual freight rates. The higher rate was paid to ensure speed of delivery. Several Chinese went North on the Amur, bound to Skagway, whether they will have as stormy a time as the company who went to White Horse remains to be seen. The steamer Princess May, the down steamer from Skagway, is looked for today.

Steamer Cottage City will follow the Amur North from the outer wharf this morning. She has 40 tons of freight and 15 local passengers.

**MARINE NOTES.**

The piledriver Stevedore will be sold by auction today at 11 o'clock. Steamer Iyo Maru, of the Nippon Yusen Kaisha line, which sailed from Yokohama on July 1 for Victoria, has 42 crewmen on board for this port and about a hundred tons of general freight to be landed here.

Tuk Hope is here from Seattle with the barge Sayward No. 1, which is laden with logging machinery, consisting of an engine and two rolls of wire cable, which is to be used in the Sayward logging camp up the Island coast.

Steamer Majestic was full up when she sailed for the Sound last night, and it is expected that the accommodation of both steamers will be fully tested to-day.

Steamer Shawmut, the 18,500-ton steamer of the Boston Steamship company, which is en route to Seattle to enter for the carrying trade of the Pacific with the steamer Maru, which is in dry dock about 10 miles from the northwest of Osei island, will be a total loss. She was 346 tons register, built at Osaka in March, 1900, at a cost of 60,000 yen.

**VICTORIA TIDES.**

For the Month of July, 1902.  
(Issued by the tidal survey branch of the Department of Marine and Fisheries, Ottawa.)

The time used is Pacific standard for the northen west coast, or corrected from 6 to 20 hours, from Midnights to midnight. The height is in feet and tenths of a foot.

**FOREIGN COAL SHIPMENTS.**

Following are the foreign coal shipments for the month ending 30th June, 1902:

**NEW VANCOUVER COAL.**

**The Colonist.**

THURSDAY, JULY 3, 1902.

Published by  
The Colonist Printing & Publishing  
Company, Limited Liability  
No. 27 Broad St. - Victoria, B.C.  
Percival R. Brown, Manager.

**THE DAILY COLONIST.**

Delivered by carrier at 20 cents  
or mailed postpaid to any part of  
the Dominion, except the city, and  
the following rates

One year ..... 30  
Six months ..... 30

**THE SEMI-WEEKLY COLONIST**

One year ..... \$1.50  
Six months ..... 40  
Three months ..... 40

Sent postpaid to any part of Canada or the  
United States.

TERMS STRICTLY IN ADVANCE.

**NOTICE TO ADVERTISERS.****ADVERTISING RATES.**

Agate measurement: 14 lines to the inch.  
READING NOTICES—20c. per line each  
insertion, or \$2 per line per month.

TRANSIENT AND LEGAL ADVERTISING—  
20c. per line for first insertion, and  
60c. per line for each subsequent consecutive  
insertion; otherwise 10c. per line each  
insertion. Preferred positions extra, according  
to page, etc.

LIBERAL DISCOUNT on yearly and  
half-yearly contracts. For rates, etc., apply  
at the office.

FINANCIAL, INSURANCE AND COM-  
MERCIAL ADVERTISING—20c. per line for 100  
lines or under, over 100 lines, 10c. per cent  
discount on each additional 100 up to 500;  
500 lines or over, 10c. per line. Reports  
published in the Daily Colonist, inserted  
in the Semi-weekly editions for 60 per  
cent, additional to the Daily rate.

CONDENSED ADVERTISING (CLASSIFIED)—10c. per word each insertion;  
10c. per cent. discount for six or over consecutive insertions. Cash with order. No  
advertisement inserted for less than 25c.

BUSINESS OR PROFESSIONAL CARDS—  
Of four lines or under, \$2 per month.

BIRTHS, MARRIAGES AND DEATHS—  
\$1 each, including insertion in the Daily  
and one of the Semi-weekly editions.

No advertisement charged to account for  
less than \$1.

**\$25.00 REWARD**

Will be paid for such information as  
will lead to the conviction of anyone  
stealing the Colonist newspaper from  
the door of a subscriber.

**CAMPING OUT.**

This is the time of year when Nature's most insistent call goes out to her errant but still loyal children in the cities. All hear the call; all obey it who can. He renders most perfect obedience who camps out, for it is he who gets nearest to Nature's heart. To camp out on a moderate and sensible scale is easy, inexpensive, and enjoyable—if you know how. Given a congenial party, a good location, and a properly arranged camp, the man who does not have a good time is lacking in some essential quality of the real man. Here are some useful hints for amateurs based on the teachings of the only good teacher—experience. In preparing your personal outfit use your every-day knowledge as far as it will go; then fall back on your common sense. Take two complete suits of warm, comfortable, durable clothing. You must have a rain coat and heavy waterproof shoes. Don't forget your toothbrush, soap, towels, and little things necessary to your comfort at home. Make your personal outfit complete, but keep it within the limits of easy transportation, and pack it so that it will stand rough handling. Almost any tent sold by a reputable dealer will do. You need two blankets and a rubber sheet for your bed. Have your cooking and table utensils of stout ware. Patent stoves and bake ovens are a luxury, not a necessity, but there should be one large alcohol lamp or small kerosene stove in the party. In selecting provisions keep close to the staples, and pack everything as if you expected to be shipwrecked every twenty-four hours. Avoid all canned goods except concentrated soup. Use bacon instead of lard for frying. In camp, bacon is civilization's best gift to man; therefore have plenty of it. Pitch your tent on high ground in an open space where the sun shines freely. Face it to the East. If possible, have the ground slope from back to front. Dig a trench at the back and sides. Pull the canvas taut, and see that it reaches to the ground. Thus shall the clouds descend and you keep dry within. Nature has provided your bed close at hand. The springs are slender hemlock boughs laid with the curve up. The mattress is a thick layer of fragrant cedar. With rubber sheet and blankets here is a couch for the gods; the feather bed of our grandmothers or the hair mattress of the furniture dealer is a joke beside it. Air your bedding every day in the sun, and add to your springs as they flatten out from use. On the camp fire hangs the fate of the camp. But the camp fire is not one, but two—the big roaring one at evening that you sit around, singing and telling stories, and the little cooking fire. Any one can build the big fire. Here is the secret of the little one: Set stones or green logs so that the frying pan will just reach across over the bed of coals between them. So shall you get no smoke in your eyes, nor burn the trout to a cinder, nor melt the handle from the coffee pot. And the camp shall rise up and call the cook blessed. Go to camp determined to have a good time. Do your share of the work with a cheerful heart. Go to bed and get up with the wild things of the

woods. So shall you fill your lungs with fresh air, and make your blood red again, and harden your flabby muscles, and eat like a prize fighter, and sleep like a little child. For these are Nature's rewards to those who seek her with understanding.

**PREFERENTIAL TRADE.**

The question of preferential trade within the Empire has been raised in Great Britain by the imposition of a duty on corn. It has been suddenly brought out of the region of political theory into the arena of vexed political questions. It is quite likely that it may grow to be the question on which a general election may be fought, and become a political issue effecting a rearrangement of political parties in Great Britain. Since the Home Rule agitation received its quietus, there has been really no Liberal party in Great Britain. Those who call themselves Liberals have been hopelessly divided upon a large number of separate issues, but particularly in their attitude to that new conception of patriotism called Imperialism. Imperialism, which has been a word hitherto of significance rather nebulous and vague, is likely to become definite over the matter of preferential trade. It is a question whether in introducing the corn duty the ministers in Great Britain knew what they were doing. It is certain that some of them did not. We may make an exception in presence in favor of the Hon. Joseph Chamberlain. We prefer to believe that the government of Great Britain as a whole has been guided in its action by the subconscious evolution of the idea of a United Empire, in bringing forward a proposal which is bound to render acute many of the practical problems connected with the realization of that idea. A country is in the right course which is carried along irresistibly and almost unconsciously by the force of necessities and advantages which, appearing immediately, really minister to a destiny preordained. It would be a great mistake to imagine that the Conservative party in Great Britain, as a whole, will favor the idea of preferential trade, and the Liberal party as a whole reject it. Two elements in both parties will be irreconcilably opposed to it. The first of these is made up of those people, and they are very numerous, who attribute Great Britain's great prosperity as a trading nation to firm adherence to an economic dogma, oblivious to the fact that natural conditions have had most to do with it, while adherence to this dogma has frequently injured instead of aiding Great Britain. We may admit that free trade, by cheapening food, strengthened Great Britain's competitive position, as a manufacturing country, without admitting that in cases where it has destroyed important industries it has worked altogether to her advantage. But Britons are nothing if not obstinate, and will hold on to an impracticable dogma very much as they will hold on to an indefensible military position long after mere intelligence has counseled them to abandon it. The second element is made up of those who cling to the old idea of Empire, who are to be found among the sunless Conservatives. They believe in the British Empire, but they mean Great Britain, and preferential trade which continued to mean free competition from the Colonies against the British farmer, would not suit their ideas at all. The progress of the idea of a closer union of the Empire will depend upon those who are awakened to a realizing sense of new developments, and are able to take a turn grasp of big things. Fortunately, among the most trusted leaders of public opinion in Great Britain, are men who do not fall short in this respect. It would be an equally great mistake on our part to imagine that preferential trade does not present difficulties from the Colonial point of view. Are we to admit British manufactures in direct competition with our own manufactures? To do so would be to destroy many of our budding industries and limit the development of the country in many directions necessary to the up-building of a nation. So that preferential trade can mean for us free trade within the Empire. But surely a great deal could be done if Great Britain would recognize that for those things she is compelled to purchase abroad, the Colonies should be given a preference as we are willing to recognize, and to some extent have already recognized, that of those things which we are compelled to purchase abroad, Great Britain should be given a preference. The wealthier a nation becomes the larger its imports from abroad become. This result is independent of tariff walls altogether. If Great Britain will agree to buy from us before going anywhere else, we will agree to buy from her before going anywhere else. That is, simply stated, the doctrine of preferential trade, as applied to the Empire, and it is as certain to be eventually recognized by all as an Imperial necessity, as it is now clearly seen by some to be an Imperial advantage.

Toronto has had a street car strike which for one day was accompanied by scenes of regrettable disorder. The people of Toronto are disgusted and ashamed at this blot upon the fair fame of their city. But outsiders see most of the game and a Buffalo paper lays this flatteringunction to the soul of Toronto. The Toronto street car strike is settled by mutual concessions; the Canadians jumped on the rioters at once, and the city was delivered from any such terrorism as prevailed at Albany, to its everlasting disgrace.

The entire cost of the State administration of New Jersey, outside the courts is contributed in taxation and fees by corporations controlled by J. Pierpont Morgan. The total annual tax is \$150,738. The United States Steel Co. comprises eight consolidated corporations, and their total tax is \$5,663. The Federal Steel Co. pays \$8,737, the American Wire Cloth Co., \$9,250, the American Bridge Co., \$7,803, American Sheet Steel Co., \$6,500, the American Tin Plate Co., \$6,030, the Carnegie Co., \$11,750, and the National Steel Co., \$6,700.

**AN OBSTINATE CASE OF ECZEMA.**

Mr. W. D. Johnson, Tilsonburg, Ont., says his son, standing at the door of Dr. Chase's Outpatient, His leg and foot were a mass of sores that refused to heal, and he suffered terribly from theitching and stinging. When he used a special ointment and was treated by first class doctors no permanent relief was obtained until he used Dr. Chase's Ointment.

"So you have proposed to the American help?"

"I have," answered Lord Tilson.

"Have you been accepted?"

"Not finally. I am to call tomorrow with a list of my creditors."

## Local News.

Police Commissioners.—The Police Commissioners held a meeting yesterday morning, but only routine matters came up.

Clearing House.—The Clearing House returns for the week ending June 30, July 1 being a holiday are: Clearings, \$410,490; balances, \$155,824.

Public Installation.—The Victoria Fair West lodges will hold a public installation service on July 11. The public is invited to attend.

Employees Paid.—The employees engaged on street and other municipal work received their month's wages yesterday, the pay roll amounting to about \$7,000.

No One Hurt.—One of Porter Bros. delivery wagons upset on Douglas street yesterday afternoon, the horse taking fright. Fortunately no one was hurt, and the damage was slight.

Improvement.—The work on the improvements to the Centennial Methodist Sunday school room will commence today. The room will be enlarged and a number of alterations are to be made.

Officers for Fernie.—Provincial Constable Hoskins has left for Fernie. Constable Spain joined him at the Terminal City. The two officers will remain at Fernie during the strike, and later on, Mr. Hoskins will most likely be stationed at Cranbrook.

Office Removed.—The dead letter branch of the post office will be moved to Vancouver. Mr. G. A. D. Mailleau, superintendent of that department, having received instructions to move to Vancouver to take over the branch established there in April. Before Mr. Mailleau's arrival, he has three or four years ago, there was no dead letter office west of the Rockies.

Pupils' Picnic.—The pupils of Miss S. F. Smith's school held an enjoyable picnic at the grounds of Mrs. M. R. Smith, 92 Douglas road, yesterday. There were 35 pupils in attendance. Games and refreshments were indulged in. Many parents and friends joined the pupils later on. Miss Smith closed her studio for the summer vacation on July 5, reopening September 1, when she will resume her classes in theory, harmony, history and piano.

Going to Siberia.—Mr. W. Pellew-Harvey left at the beginning of the week for Siberia, in the interests of a London company, says a London paper. This trip will not, however, interfere with Mr. Pellew-Harvey's visit to British Columbia, where he will arrive some time in August. When he left London Mr. Pellew-Harvey was undecided whether he would return to London before starting for British Columbia or whether he would journey by the Trans-Siberian railway and steamer to Victoria.

Will Provide All.—It will be pleasant reading to Professor E. G. Wickens and his pupils, and all who kindly assisted at the concert last week in aid of the Protestant Orphanage, to know that the \$36 realized thereby, has through the generosity of the Pattersons, been expended for the object in view, for that firm has kindly agreed for the amount named to provide each inmate of the Home with a strong and serviceable pair of boots or shoes.

Trip to Angeles.—The celebration committee in charge of the sports for Friday at Port Angeles, have a complete programme and all the events will be well filled. Besides the usual miscellaneous field sports, which will include a senior baseball match between the Victoria and the home team, other and numerous attractions will be furnished for the visitors, including yacht races, band concerts, etc. The steamer City of Nanaimo will make three round trips, leaving the C. P. N. wharf at 9 a.m. and 2 and 7 p.m. The city band in attendance.

## AN INVITATION.

To the young and old smokers  
To those who are jokers,  
To the rheumatic croakers,  
Come and pay us a call.

We ran out of rhyme just at this stage, but the invitation stands just the same. We intend to offer a prize for the best four-verse poetry on our business, competition to begin at once. Campbell & Cullin's tobacco, and everything in the smoking line, 79 Government street, corner Trounce avenue.

Baseball, Friday, July 4. Victoria v. Port Angeles. 1 p.m. Angeles. Take steamship City of Nanaimo from C. P. N. wharf, 9 a.m., 2 and 7 p.m. Fare only 50 cents return. City band in attendance. Large programme of sports.

## To Appear

Writ of Attachment issued for McAdam, the Sandon Editor.

**Yukon Appeals Have Now Been Reached by the Full Court.**

William McAdam, editor of the Sandon Paystreak, failed to appear before the Full court yesterday to answer to the summons to appear and show cause why he should not be committed for contempt of court for publishing an article reflecting on the judges of the Supreme court. Instead he followed up his first article with a second one, in which, referring to the proceedings for contempt, added that the editor would be unlikely in proving the editor, as he pleaded guilty to as great a contempt for the British Columbia judiciary as any man was capable of feeling without becoming violent. He also wrote a letter to the Chief Justice in which he said he had no money with which to come to Victoria, and besides the time had been too short to prepare his case. He asked that the proceedings be adjourned to a more convenient day. Under ordinary circumstances the Chief Justice said he would be in favor of granting further time in which to prepare a defence, but as things stood, the writ of attachment must be issued. The writ was issued and will be sent to Sandon, where McAdam will be arrested.

**YUKON APPEALS.**

The Yukon appeals having been reached, the case of Belcher v. McDonald was taken up. This is an appeal from a judgment of Judge Dugas of Dawson. The executors of Alexander Calder brought an action against Alexander McDonald, the "Klondike King," for \$103,447. The plaintiffs abandoned part of this claim, another part was dismissed, and Judge Dugas referred the accounts between the parties to an official referee who found that Calder owned McDonald \$8,846.53. The judge then dismissed the balance of the plaintiff's claim with costs, reserving to McDonald his remedies against the estate for the amount to be referred to him. The plaintiffs are appealing against this. Sir C. H. Tupper, K. C., and Fred Peters, K. C., are in the lead. C. M. Woodward, of Dawson, appears for the plaintiffs, and E. P. Davis, K. C., and A. Noel, the latter of Dawson, for the defendants. Argument was not concluded when the court adjourned last evening until today.

The trial of Noble Five v. Last Chance, which was on the list for the civil assizes to be held next week, has been adjourned until October.

**IN CHAMBERS.**

In chambers yesterday morning before Mr. Justice Walkup, the following applications were disposed of: Re Florida Miner, W. M. Griffin applied for approval of bond put up as security for appeal to Supreme Court of Canada, which was granted. Re Goo, Koenig, deceased, G. H. Barnes obtained proof of will of deceased.

Re Starr M. & M. Co. v. Byron, N. White Co. J. H. Lawson, Jr., defendant, moved for an order allowing inspection of works, which was granted.

**SUNDAY CLOSING.**

Before the Chief Justice yesterday afternoon argument was heard in the case to test the validity of the Sunday Closing by-law passed by the city council of Nanaimo. The council passed a by-law in which it was clause providing a penalty for anyone found on licensed premises during prohibited hours, and under this clause the magistrate of the Coal City convicted a man arrested by the police. After hearing argument the Chief Justice reserved judgment. Mr. Barker appeared for the city and Mr. F. McB. Young for the defendant.

**LOTS OF WORK.**

Big Works Under Way in City Giving Employment to Many.

Men willing to work should have no difficulty in getting employment now. Yesterday the city engineer commenced the work of tearing up the old macadam on Government street to make room for the block paving. Some fifty men are engaged on this work, and there are several more on Douglas street, which is being raised to its proper level between Johnson and Pandora streets, with the metal taken from Government street. The city also has men at work on a permanent sidewalk on Fort street, and as soon as that piece is finished they will commence moving the sidewalk on Bastion street in front of the Court House, back to the building, and so on, widening the surface from Bastion square to wider thoroughfare from Bastion square.

Another gang of men are putting the roughing on the James Bay retaining wall, while the Street Railway company have a gang relaying their track from Oak Bay junction to the Jubilee hospital. A spur has been run from Oak Bay road to a gravel pit to get material for grading purposes.

**HEAVY FINE.**

Johnson Street Saloonkeeper Fined For Supplying Liquor to Indians.

For Neuberger, because of the Jubilee Inn on Johnson street, was yesterday fined \$250 by Magistrate Hall in the City Police court for supplying beer to Indians. Tom James and John Smith testified that Neuberger had supplied them with beer in a back room of the Jubilee saloon. Neuberger denied this, but admitted that Indians frequented cabins at the back of the saloon, which he rented, and that they came out drunk. It is expected that the fine will be paid.

James and Smith, who were found with some of the beer in their possession, were each fined \$25, which they paid.

Another Indian was fined \$25 for the same offence; still another Indian allowed his bail of \$10 to be suspended, four more were fined \$5 and \$1 for being drunk. These Indians paid their fines and another \$50 was contributed by an Indian, who last week was convicted of assault. Johnnie Howard, convicted of being drunk and fined \$5 and \$1 costs, went to jail in default of payment.

The police are being kept busy with the Indians, who are here on their way to the Fraser river. Yesterday to their attention, a Dodge's Cove Indian getting an information for another West Coast Indian whom he charged with assaulting him. He displayed a slight knife cut on the forehead.

## Sports Away From Home

Victoria Yachts Win Two Out of Three Firsts and a Second.

Bicycle Riders From the Capital Get Share of Vancouver Trophies.

Port Townsend, July 2.—(Special)—A spanking south breeze found a number of yachts ready as the gun on the cruiser "Grant" sounded the start of the international meet today. It was an ideal day. There were but three entries in A class; The Arriadne, of Victoria; Bonita, of Seattle, and Rambler of the same place. Bonita won, Arriadne second. B class was much better represented. The starters being the Widewake of Victoria; Hornet and Zephyr, of Seattle; Jannetta, of Port Townsend, and Arriadne of Whatcom. The Widewake won by 3 minutes, 36½ seconds, actual sailing time, or 2 minutes 50½ seconds corrected time. In C class, Dione won by something less than one minute, corrected time 30 seconds. There are no races tomorrow, but on the fourth the yachts will sail for the Key City trophy and the Townsend cups.

VANCOUVER TOO STRONG. Defeated the Navy Team at Cricket Yesterday Afternoon.

Vancouver, July 2.—(Special)—In the cricket match today between Vancouver Navy, Vancouver, and 26 runs. The Navy made 29 runs in their first inning and Vancouver 96. In their second inning the Navy were retired for 41 runs. The feature of the game was Jukes and Cressfield, for Vancouver putting out 6 and 5 men respectively, both in the first and second innings. Fletcher, for the Navy bowled out seven Vancouver men. The top liner for Vancouver was Semler, 36, and for the Navy Hammick and Woodward, 16 each.

ONE EACH.

Vancouver Found McKay Easy But Were Shut Out by Shock.

Vancouver, July 2.—(Special)—The return ball games with Everett were played today, Vancouver winning the morning game, in which McKay did the pitching for the visitors, and being shut out by Shock in the afternoon. In the morning game Vancouver batted McKay's Everett's pitcher, all over the field. Eight hits were made off him, and the score stood 6 to 2 in favor of Vancouver at the end of the game. The splendid fielding of Everett saved them from a worse beating. Nicholl, Vancouver's pitcher, was in splendid form and kept the visitors guessing throughout the game.

In the afternoon game a fine exhibition of good ball was witnessed by a large crowd. Everett shut out Vancouver, the score being 3 to nothing.

GAMES BOOKED.

Victoria Ball Players Have a Couple of Busy Month Ahead.

The Victoria baseball players have a very busy time before them on Friday. They will travel to Port Angeles to meet the team from that town, and on Saturday the return match will be played at Oak Bay. On the 12th a hard game is expected, as then the N. P. R. R. team of Tacoma will oppose the local boys. The strength of the Nanaimo nine will be tested at the Coal City on the 19th, and on the 26th one of the finest games of the season will be witnessed at Oak Bay. On that date the Chemainus Indian team from the United States Industrial school near Salem, Oregon, will meet the Victoria boys, and

from all accounts the local players will have to put up gilt-edged ball in order to win. On August 2, Victorians will be able to settle the oft disputed question as to the respective merits of the Victoria and Vancouver teams. This game will be worth going miles to see. The game between the two aggregations is remarkably keen, and as they are very evenly matched, a great struggle is expected. The return match will be played at Vancouver on August 3.

**BIKE RACES.**

Victoria Riders Secured Their Share of The Prizes at Vancouver.

Vancouver, July 2.—(Special)—An enormous crowd was at Brockton Point today to witness the bicycle races under the auspices of the Brockton Point association. The races were enlivened by the sailors' sports, which were carried on with such vim and spirit as to keep the crowd in good humor throughout the long program.

In the one-mile novice race, W. Irud was first; W. Greer, second, and T. G. 23. In the boys' race, Tom Watson was first and Arthur Oben second. Time 2:49.

The quarter-mile open was won by Bert Woods, K. V. Martin second, and T. G. Jenkins third. Time 35:25.

Wood also won the one-mile paced race, with K. V. Martin second. Time 2:12 1-5. This was the only fast race of the afternoon.

In the two-mile lap race, the Victoria rider Hancock, showed up for the first time and seemed to win as he liked. He was first with 22 to his credit. Martin was second with 29, and Wood third with 9.

In the two-mile handicap, Dodd, 150 yards, was first, Martin, 125 yards second, and Greer, 150 yards third. Wood was on scratch, and although he overtook the bunch was winded, and had no spurs left for the home run.

In the quarter-mile championship Hancock and Woods made a pretty race for first place, but the Victoria boy proved the fastest sprinter in the home run, and passed Wood under the wire by a wheel. Time 36:25.

Hancock was again victorious in the half-mile championship, winning from Wood and Martin. There was a protest entered in this race on the ground that Wood was looking behind him to locate Martin, in other words, doing work with Hancock. The protest was not sustained. Time 1:38 1-5.

The one-mile championship was won by Wood in a beautiful finish, with Hancock right at his wheel's hub. The race was all in the run home, as the time was announced as 3:12, and elicited a groan from the grand stand.

Hancock again won in the five-mile championship. Wood unfortunately punctured his tire in the first mile. It gave him a chance to run fresh in the protest race following, but lost him his chance for the coveted prize. Green gave Hancock a hard tunnel for first place. K. V. Martin third, being close behind Greer. Time 15:35 2-5.

The crowd became impatient for the protest race, the final race on the programme, as it was after six, and elongated for it to be pulled off. Hancock had to rush to the dressing room, get a rub down and be on the track again without sufficient rest, but he and Jenkins rode a plucky race, and were not overtaken by Wood and Martin of Vancouver until four miles and a quarter were covered. This race caused more interest than any event of the day, for it was hard racing, seventeen laps and the teams fought it out to the finish. Time 10:36 4-5.

RACES AT HASTINGS.

Big Crowd Attended the Second Day's Meeting of Vancouver Club.

Vancouver, July 2.—(Special)—About 1,000 people attended the second day's racing at Hastings. The principal event was the six and a half furlongs dash for the British Columbia stakes. In this race there was a splendid struggle for first place between Sailor, the winner, and Eldred. The horses had gone into the last quarter with Eldred leading. Sailor drew up as the bunch turned into the home stretch, and passed under the wire a close winner. Time, 1:31.

In the Vancouver Derby, one and a half miles, Dr. Marks took first place and Moreng second. Time 2:33. Dr. Marks' jockey was censured by the judges for attempting to jockey Idaho Chief, and was fined \$50 and ruled off the track for talking back.

Haze Witch won the last three heats and race in the 2:40 trot; Duke second. Time, 2:30.

In the tradesmen's race, half mile dash, Sleepy Dan was first, and Servis second. Time, 1:16.

The North Pacific purse, four and a half furlong, was won by Gipsy Boy; Red Spinner second. Time, 1:32.

In the expressmen's race, three-quarter mile dash, Fly won; Fan second.

In the Try-Again Consolation race, Knocking was first; Bermudian second; Cherrystone third. Time, 1:27.

SPORT NOTES.

Some very high scores were made at the Dominion Day rifle competition at Vancouver, the best being those of 97, one of 96 and one of 95. The Victoria scores were: R. J. Butler, 94; A. Brayshaw, 90; W. P. Winsby, 90; J. Cavey, 86; W. Savory, 76. In the team competition Victoria was severely handicapped as several members of the team did not turn up, and their places had to be filled by substitutes.

Two exciting baseball games will be played at Beacon Hill Saturday afternoon. The Colonist team will meet the Fernwoods on the upper diamond, while the Capital City and Hillside nines will struggle for supremacy on the lower diamond. The grass on the upper diamond has not yet been cut, and the ground is in a disgraceful condition. The city should have the matter attended to at once.

The first eleven of the Victoria cricket club plays the Nanaimo club at Nanaimo on Saturday, and on the same day the second eleven plays the Fernwoods at Beacon Hill.

The Capitals will play a schedule game of lacrosse with the South Park team at Caledonian grounds next Saturday afternoon, when Charles Cullin, of the seniors, will act as referee.

## Decide to

### Build Steps

#### Improvements for North End of Stone Wall Across James Bay.

#### Work Will Be Completed in Two Weeks—Point Ellice Bridge.

A meeting of the Streets, Sewers and Bridges committee of the City Council was held last night at the City hall, with the Mayor in the chair, and the members of the board all present. The letter of Mr. Mohun, C. E., proposing an alternative plan of building a steel and concrete bridge at Point Ellice was considered and discussed, and finally referred back to the Council for further information.

The city engineer submitted a plan for the completion of the stone wall at the north end of the James Bay causeway, with concrete steps leading to the water, and a platform, which was considered and recommended favorably to the council.

It was also decided to place the table which was to have been laid by H. R. H. the Prince of Wales during his visit here in the wall, and cut the inscription to be written on it when the bridge is completed.

It was decided to build a sidewalk on the lower end of Yates street, the cost of which was not stated. The building of a gravel sidewalk on the northeast side of Stanley avenue was ordered done at a cost of \$51. A box drain will be constructed on John street at a cost of \$50, and 300 feet of sidewalk will be laid on the north side of St. James street between Menzies and South Turner streets at a cost of \$52.

Regarding the scheme for the installation of a spiral feeder at the Electric Light station to allow of the boilers being fed with sawdust from a bin containing a week's supply of that fuel, it was decided to make a further test of four month's firing by hand, before deciding to install the spiral at a cost of about \$1,200. A contract will be made with the Sawmill mills for the supply of the sawdust, when it is decided to install the apparatus.

The letter of Mr. Mohun, outlining his scheme for Point Ellice bridge, which has already appeared in the Colonist, was read, and Ald. Vincent said the council had not permission to build a concrete bridge. Several aldermen thought this permission could be obtained.

Ald. Kinsman thought that the money hand should not be all expended on the bridge, which should be built economically and money diverted to other sources where it was needed.

Ald. McCandless was in favor of carrying

out the suggestions of Mr. Mohun, which gave two schemes, for a concrete or a steel bridge. Tenders could be secured on both, and if the price for the building of the concrete work was no more than the steel bridge, he would vote for it. If the price was higher, the plans could be returned to Mr. Mohun and there was no harm done.

Ald. Worthington would also support it if the cost was similar.

Ald. Vincent thought that estimates for a concrete bridge would run to from \$145,000 to \$180,000.

Mr. Topp, city engineer, said a concrete bridge would cost more than a steel bridge as proposed. A concrete bridge of the same proportions as the steel bridge planned, could not be built for the cost.

Ald. Williams moved, after further discussion, that the proposal in Mr. Mohun's letter be accepted and recommended to the City Council, the approval of the Tramway company being secured in the meantime.

Ald. McCandless seconded the motion.

The mayor suggested that an interview be had with the tramway officials prior to Monday. Finally it was moved in amendment that the letter be laid on the table until further information was secured. This was carried.

LETTERS TO THE EDITOR.

BAND CONCERTS.

Sir—So a majority of the aldermen have decided that all the citizens and visitors entitled to it is music by the yard, all the strength is to be exhibited in the absence of irrespective of quality or public policy. Though, as regards quality, I do not mean to cast any reflections on the City Band, but only to point out that the services needed of a band would appear to demand a fixed number of pieces irrespective of ability to use them. But the more important consideration is the largest question of public policy. Any one who has had anything to do with a volunteer regiment must know that a band is an essential feature if the strength is to be maintained. I know that it never receives any government aid, more than the very nominal part of the band and file, which any intelligent man must know is not enough to purchase a band. Now, Mr. Alderman Worthington's speech at the meeting of the ratemakers on the 23rd June last, reported in the list of next day, that the ratemakers are debating the use of some of their property that the Council may misuse it and waste it. Mr. Alderman Worthington's speech also will not mislead the public as to the fact of the band being in debt, for we can get all the sea water we want for these purposes to the cost of getting it on land. We all know we are kept short of water, but we yet may not have an increased supply of pure and wholesome water upon which the debt was created. It is diverted other purposes for which the debt was not created, and asked to pay the large debt in their intelligent administration of the city's affairs. Mr. Worthington's speech, though started to put up a saw mill with the intention of getting timber which will be a great saving to them on account of the present cost of hauling timber up the mountain. The aerial tramway will be running in about a month, and in order to guard against fire, Mr. William Dryer is superintending the works of clearing out all the logs and brush in the towers. The Leona Park will be added, adding improvements to their already well equipped plant, and the mine presents a very busy appearance. The Key City is also going ahead rapidly since installing a hoisting plant and steam drills.

Mr. Joe Bebeau's hotel, the "Brenton" will be open about July 1, and will no doubt be a very cosy place. Quite a novelty about it will be the saloon, which will be in the basement, below the street. The saloon here were very sorry to hear that there were no sports in Victoria on Thursday, as nearly all of them had intended taking a holiday.

# Copper Mines

## At Sooke

Development Work Continues to Prove Presence of Satisfactory Ore Values.

Reports That \$100,000 Has Been Offered For Claims And Refused.

Street rumor during the past few days has been very much interested with the development at the Sooke Copper mines. There have been reports of shafts down a hundred and odd feet; ledges eighty feet wide, and ore values running into all kinds of money. That the owners of the property at Sooke have ample reason to feel satisfied with the results and their work so far, is amply borne out by what may be seen by anyone who takes the trouble to visit these nearby claims, but that street rumor has this time overstated the case, is equally true. It may be stated authoritatively, however, that the owners have declined several offers, varying from \$50,000 to \$100,000 for their prospect, for it is as yet only a prospect, but a remarkably good one. In fact, they are determined to put a price upon it, and there would appear to be very good grounds for this decision, for as a matter of fact, although the prospect hole is down not more than 50 feet, there is in sight, according to those who know whereof they speak, that there is \$50,000 worth of ore in sight. Some of the specimens which have been brought to town are admitted to be fine ones as can be found anywhere. The average of these runs about 25 per cent. copper, besides gold values.

Four men are at work sinking on the ledge, and as stated, they are down about 50 feet, following the vein, the width of which is not known, and the men who have been there have taken from the greatest depth. There are some magnificent specimens of native copper taken from this depth, and it is amusing to remark that one of the local wise ones to whom these samples were shown, shrugged his shoulders, and remarked, "only surface blow outs," whereas as a matter of fact the specimens were secured nearly 50 feet in the ground.

The formation of the ore encountered on these claims are most unusual, in fact they are hitherto absolutely unknown in mining. The ore is found in what may be called large pellets, or lumps, having on their surface nothing to indicate what is inside, but on breaking these lumps it is found that they are solid and as stated above, run about 26 per cent. in copper. There again there are huge crystals of chalcocite, measuring five to six inches across. These large crystals are formed of the smaller crystals of chalcocite, and show absolutely regular elevations.

In the Sooke mineral claims, as thus far developed, are found many unusual features, but the ore values remain extremely satisfactory.

Details of the claims being developed, refused to talk for publication, but sufficient has been learned to warrant the correctness of the foregoing.

As Mr. Thompson, the manager of the company stated yesterday, "The prospect may ultimately prove a valuable one, but six months work may show it to be absolutely valueless. I was on the other day by a mining engineer that had been pestered, but I only said and told him that he was a good prophet. Then again I was asked by some geological experts what I would give for a report, and I told them 'I would not give them a postage stamp.' Then again some of the cleverest and most reliable mining men who have come to Victoria, have examined the claims, but have refused to express an opinion, contenting themselves with saying gold is where you find it, and you know as much about the mine as we do."

MOUNT SICKER.

Mining Active in the District—New Improvements.

Mount Sicker, July 1—Mining has been very active here lately, several claim owners starting in to do assessment work on their respective claims. The Tye Copper Co. are making extensive improvements, having started to put up a saw mill with the intention of getting timber which will be a great saving to them on account of the present cost of hauling timber up the mountain. The aerial tramway will be running in about a month, and in order to guard against fire, Mr. William Dryer is superintending the works of clearing out all the logs and brush in the towers. The Leona Park will be added, adding improvements to their already well equipped plant, and the mine presents a very busy appearance. The Key City is also going ahead rapidly since installing a hoisting plant and steam drills.

Mr. Joe Bebeau's hotel, the "Brenton" will be open about July 1, and will no doubt be a very cosy place. Quite a novelty about it will be the saloon, which will be in the basement, below the street.

The stores are doing a thriving business in strawberries, and for the convenience of patrons the proprietors of both stores get their fruit daily via Duncan.

Messrs. Park, Calvert and Brice have taken up their residence on the town-site, and houses to rent are in great demand. Probably Mr. Calvert will make arrangements to have some cottages built, and it would prove a very profitable speculation, as well as making this place look more like a town.

Cincinnati, O., has a new baseball grandstand of steel and concrete, which it is called the "Palace of Fans."

A petition to the President and Congress of the United States, asking an appropriation of \$500,000,000 to assist negroes to be freed from their condition of slavery, has been presented by the International Negroes' Improvement Association, an organization of negroes, who were in session in Chattanooga, a fortnight ago. The petition relates a little in detail to what negroes are doing to assist the negroes in the South, and the negroes in the South are doing to assist the negroes in the South.

The Kootenay merchants complain of people sending East for most of their goods, patronizing the department stores.

But the men who sent the goods accompanied the order. Thus the department stores carry no debts, either good or bad, and have no money lying idle. Not so with the local merchant.—Russell Miner.

BUSINESS POINTERS.

The big sale of The Elite millinery store is still going on at the Sterling Dry goods store, 30 Government street. This stock having been repaired from The Elite millinery store, Fort street, to The Sterling, for convenience, to be sold out with the balance of the dry goods store left over from their last big sale. It must be sold, regardless of price.

The store and office of the Fairview nursery has been removed from 74 Yates street to 101 Government street, which has been specially fitted up for the business. The fly of the valley, the beautiful and ever-fragrant carnation, as well as all the other fine varieties of flowers may here be had fresh-cut daily.

## TRY GRANDAS

You can't get away from facts.

There are some interesting cigar facts. One is that there is a cigar made in Canada equal to the best imported cigars. The manufacturers say so. They are more. They challenge anyone to disprove their "say so."

They make it worth while. They offer \$500 to any one who can distinguish between Grandas and the best imported cigars. Several have tried and failed. You have smoked imported cigars, now

# Cold Along

## Pelly River

Colors Obtained at Many Places Where the Steamer Touched.

Mining Parties Go in to Explore Vicinity—Gold Bearing Tributaries.

The steamer La France has returned to Dawson from her trip up the Pelly, and she reported that indications of gold all along the Pelly river for the first 350 to 400 miles were found. The steamer went to Hoole canyon, 20 miles above the mouth of Ross river, and from mining made by the officers of the steamer, and those were obtained at every point along the stream where the vessel stopped. As high as \$5 a day it was learned, is made by men working on some of the bars. The steamer took up 20 tons of cargo for a trading post. It was put ashore at the mouth of Ross river.

SUPPLANT THE PUG.

Mother (to son)—"Well, James, I really thought that there was going to be an engagement between Miss Rosebud and you, and I was hoping it was so, for she is a good, affectionate girl."

"No, mother, Miss Rosebud is very pretty, and all that, but she is not a good girl, she is a good dog, she is very affectionate to the head of a pack of dogs of hers. I want a wife to attend to me, not to a brute like that."

"Well, James, I know more about women than you do. I think I should try and supplant that dog in her affections if I were you."

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

It pays to use—

PRIZE WINNERS.

Fifth Regiment Band Took First Prize in Vancouver Competition.

The members of the Fifth Regiment band returned last evening from Vancouver, having won the first prize in the competition and independently claimed the first prize of \$125 in the band competition. There were three entries, the Fifth Regiment of Victoria; Sixth Regiment of Vancouver, and Nanaimo. The conditions were that each band was to play two pieces of music, the first piece to be any semi-classic grand march, and the second, any piece of music each band wished to play. The first prize (\$125) was awarded to the Fifth Regiment of Victoria, and the second prize to the Sixth Regiment, and the third to Nanaimo. The pieces played by the Fifth Regiment band were "The Coronation March" by Purcell, and the overture to "Alceste" by Gluck.

The band received a great ovation, and the judges were unanimous in their verdict that the band was the best in the competition.

Montgomery, the band master, was awarded a gold medal.

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office, 25th June to 1st July, 1902.

The weather during this week has been very cool, with a maximum of 65°, though little rain fell on this coast, much greater amounts occurring further north, particularly in the Cowichan District. Mathanay, the rainfall was exceptionally heavy, reaching 100 inches in the Cariboo district, where it fell upon
